

LEGO® Therapy

Workshop	LEGO Therapy
Key Stage	All Key Stages
Recommended Age Group	All Age Groups
PoS	Social Communication Skills in line with school social collaborative inclusion
Course Description	Develop and reinforce play and social skills through LEGO. Working in teams of three, each member is given the role of either: LEGO Supplier, LEGO Architect or LEGO Builder who all work together to complete a LEGO model. LEGO therapy aims to encourage verbal and non-verbal communication, joint attention, task focus, problem solving and team work.
Duration	45 Minutes (3 x 10 minute activities)
Equipment	Small LEGO sets
Capacity	15 students, collaborate as a team*
Lesson Objectives	<ul style="list-style-type: none"> ✓ Complete three models through delivering accurate instructions and displaying effective listening skills ✓ Students will understand the need for team work, listening skills and attention ✓ Improve students ability to interact with peers for a specific period of time

*Teachers may be asked to participate to ensure groups of 3
